

Digital Art Submission Guidelines

- Digital files created in Adobe Illustrator and Adobe Photoshop are preferred. Files created in other applications may be submitted in .eps or .pdf for vector based programs. Raster Images can be supplied in .eps, .tif, .jpeg, or as a .pdf document.
- Text and logos should be supplied as vector files (Adobe Illustrator) whenever possible. When supplying copy in text format please include both the printer and postscript font files.
- Text and logos should be supplied as vector files (Adobe Illustrator) whenever possible. When supplying copy in text format please include both the printer and postscript Font files.
- Scanned Images should be supplied as eps, tif, or psd documents at an adequate resolution for the full size image. Typically a full size graphic at 50 PPI is good enough for production, however a higher resolution file may be needed for images which will be viewed at closer distances.
- Applications that we typically work in are...
 - Adobe Illustrator
 - Adobe Photoshop
 - Adobe InDesign
- Digital art may be provided on CD or DVD discs. Art may also be sent via email for files up to 5 mb and FTP sites for larger images.

Your Site - Send the link information, as well as the USER name and PASSWORD to eimage@signaturegraph.com.

Signature Graphics Site - Contact Your Signature Graphics Sales Representative for information on how to log into our site.

- When supplying a graphic with placed images and / or text files please include everything that will be necessary to produce the finished graphic on the disc. If there are corporate design or logo specifications please include a copy of these as well.
- Send discs to...
 - Signature Graphics, Inc.
 - 1000 Signature Drive
 - Porter, IN 46304
 - (Attn: Electronic Imaging Dept.)
