Health & Safety Graphics Catalog

Social distancing continues to be our best defense against the spread of infectious diseases, such as COVID-19. Through visual guidance, we help you effectively communicate safeguards to keep your valuable employees safe and instill confidence within your customers.

We have a solution for every surface, from floors to walls and windows. If you're looking to maintain consistent branding throughout your facility, we can easily customize any graphic within this catalog to match your unique aesthetic and brand guidelines. Each of our graphics is simple to install and remove with slip-resistant and damage-resistant features.

If you have questions, we have answers. We are happy to provide guidance, support, and assistance in any way we can, so your focus can remain on getting your business back to business.

All graphics in this catalog are available for customization.

Graphics Size: 36" H x 24" W

Wayfinding Graphic Solutions

Show visitors the way with graphics that guide.

With the enforcement of social distancing, now more than ever, wayfinding graphics are essential to crowd management. In environments that could be potentially maze-like to visitors (such as hospitals and schools), floor graphics can aid in showing them a clear path to their destination.

Signature Graphics can help you map out your environment to prevent visitor confusion with a wayfinding graphics strategy.

For more on this unique strategy, reach out to the contact listed on page two of this catalog, and let's start a conversation.

Classroom Desk Barriers

Custom desk barriers ensure safety in classroom settings where social distancing can be challenging.

Our custom desk barriers provide separation in classroom settings that provide an additional layer of protection against the spread of infectious disease. These barriers feature all-plastic construction, making them easy to clean and sanitize.

- Provide additional protection
- ⇒ All-plastic construction for ease of cleaning & sanitizing
- and students' names
- Available in two dimensions to accommodate students of different heights (such as elementary versus university sized students)

• Small: 48" W x 20" H

• Large: 55" W x 24" H
